Thanks Helen, this information is useful to me as I seek to gain a better understanding of all of the EPA R3 moving parts revolving around Dimock.

Hi Rick,

I'm sure your desk is piled with reading material so I'm sorry if I'm adding to that pile! I just wanted to share with you a few links to the Superfund Community Involvement Program that you may find useful. The Superfund program is mandated to inform and involve the public in the agency's decision-making process at our sites and to create meaningful opportunities for those communities to participate in the process.

It's my understanding that our C2, Jackie Guerry, and I have been asked to present an overview of Superfund and Community Involvement to you in the near future and so if you have specific questions about the Community Involvement program you'd like covered, please let me know. I hope this is helpful.
